

ACCUTRAK

Automated Steerable 3-Axis Scanner

Boasting true modularity for ease of field repair, diagnostics, and adaptation to a verity of applications on the fly. Our newest scanner is capable of 2 or 3 axis scanning, independent right and left X motors allow for on the fly adjustments utilizing a joystick or a mouse, truck assemblies have multi axis articulation allowing for scanning on curved or flat surfaces.

Base Capabilities

- Circumferential OD: 4.00"+
- Axial Pipe OD: 8.00" +
- Axial Pipe ID: 15.00" +
- Spiral Welds: OD 15.00"+
- Turn Radius: 12.00" +

Dimensions Truck

- Length: 13.500"
- Width: 10.500"
- Height: 4.250"
- Weight: 17.00 Lbs.

Speeds

- (X) 6.00" / Second
- (Y) 30.00" / Second

Encoder

- (X) 0.00002"
- (Y) 0.00015"

Motor Controller

- Length: 10.00"
- Width: 8.00"
- Height: 5.300"
- Weight: 5.600"

Power

- In- 85 to 265 VAC
- Out 36 VDC
- Draw 67 AMPS
