

EVERGREEN RENTAL PROGRAM

Under the Evergreen Rental Program (ERP), Burton NDT Rentals retains ownership of the equipment. The customer takes possession of equipment for a stated and agreed upon period, minimum of 4 (four) months. The equipment will be provided to the customer with a long-term rental rate that is significantly lower than the standard rates.

Burton NDT will:

- **Coordinate the annual maintenance schedule**
- **Coordinate and perform all annual calibrations**
- **Coordinate and perform repairs**

This program allows our customers to:

- **Quote jobs with confidence**
- **Know your cost in-advance**
- **Eliminate equipment cost over runs**
- **Reduce budget maintenance cost**
- **Reduce CAPEX spend**
- **Get a leg up on the competition**

If equipment is returned before the end of the agreed upon rental period, all preceding invoices will be adjusted to reflect customer or standard list rates.
